CASA SMEG LOOKBOOK

Made In Italy

True to its Italian origins, Smeg acknowledge the kitchen is the beating heart of any home. The company continues to be family run.

Award Winning

Smeg appliances perfectly combine design with function ensuring products are loved and trusted throughout the world.

Build Quality

Appliances are constructed from premium materials and finishes for excellent build quality and durability.

Energy Efficiency

At the forefront of production and design, Smeg appliances offer energy saving features ensuring optimum efficiency.

OMNICHEF OVENS

An appliance that does it all.

Combine traditional, microwave and steam cooking or add them in stages to obtain restaurant quality results at home in **70% less time.**

With **150 automatic recipes** and the ability to use all cooking methods at the same time to form a single dish, you can experience a **stress-free cooking experience.**

Along with a temperature probe for **precise results**, you can add water even when the door is closed with the innovative loading system to ensure you don't loose any steam for higher energy-efficiency.

Available in Dolce Stil Novo, Neptune Grey and Pure Black Linea along with 45cm and 60cm sizes.

STEAM OVENS

Steam cooking is a natural and healthy way to **preserve vitamins and nutrients** in food.

Flavours are intensified and food is kept moist so it is juicier and more tender than traditional cooking alone but it also still gives a crisp outside.

This extremely versatile way of cooking allows a huge variety of different foods to be **expertly cooked** such as seafood, pasta, meat and rice, providing **restaurant quality results** every time.

Bread can also be produced to a **professional bakery standard** by creating a lightly aerated dough with an excellent crust.

Choose between Steam100, Steam100 Pro and SteamOne appliances that are available in 45cm and 60cm sizes.

SPEEDWAVE OVENS

Seamlessly blend traditional and microwave cooking with our combi microwave range, including our latest addition: Speedwave (compact 45cm size) and SpeedwaveXL (60cm size).

Available in 45cm and 60cm, our Speedwave ovens are equipped with **impressive inverter technology** to **save you up to 40% on cooking times,** guaranteeing remarkable culinary results.

The 60cm SpeedwaveXL oven combines microwave and traditional cooking, allowing you to **free up valuable kitchen space** on worktops and built-in units. An alternative to separate combi microwaves and warming drawers, the SpeedwaveXL can cater for both, whilst offering **ample cooking capacity** with single or multiple ovens installed for flexibility or symmetry.

BLAST CHILLERS

Smeg's state-of-the-art professional blast chiller is great for **saving time** when batch cooking and **minimising food waste** by preserving fresh ingredients.

Blast chilling lowers the temperature of cooked food to just +3°C in less than 90 minutes, an ideal temperature for refrigerator storage. Cooling food rapidly ensures that its quality and freshness remains unaltered.

Blast chillers can also be used to reheat. Whilst the chiller can drop to -35°C, it also can heat to +75°C meaning you can go from a frozen to reheated dish in one appliance ready for your when you get home thanks to the innovative 'ready to eat' feature.

The appliance can also prove any type of dough and the 'drinks' cooling function allows bottles to be chilled quickly. In just a few minutes, wines or beverages can be brought to the desired temperature and will be ready to be served.

Great for desserts like sorbet, mousse and ice cream, there is even a yogurt function to create **tasty homemade puddings**.

WINE COOLERS

Elevate your wine experience by storing your special bottles in a safe and secure environment and know that your collection is maintained under constant thermostatic control.

In Italy, wine has always been synonymous with coming together and is an essential part of the country's rich traditions in food, wine, and hospitality.

Made in Italy, Smeg's wine coolers provide **precise control over light, humidity, vibration and temperature**. An **elegant and stylish** kitchen appliance to complement any home beautifully.

With a choice of sizes available, from under counter to in column, Smeg wine coolers can store between **21 - 39 bottles.** The corrugated bottom of the wine cooler adapts perfectly to the shape of bottles regardless of their diameter, from Bordeaux to champagnes.

The internal LED display ensures **maximum versatility** and the best user experience, from setting the temperature to managing the lighting. The wine coolers also offer a one-touch mechanism also allows the wine cooler to be opened and closed with a single touch, for **convenient and easy operation.**

REFRIGERATION

Whilst Smeg is best known for its iconic 50s style collection, the company also specialises in a wide range of built-in and side-by-side refrigerators. Alongside the Rust FAB fridge on show, you will also see our latest American fridge freezer.

The impressive Dark Inox **FQI60KD** is a great alternative for modern and contemporary homes, guaranteeing to make a statement.

With a generous **522 litre capacity** it can meet the demands of even the busiest household.

The 343-litre fridge has a **dedicated moisture drawer** to extend the freshness of fruit and vegetables, and **a fresh zone** that is perfect for safely storing raw meat, fish and seafood.

What sets this freezer apart is its **exceptional adaptability.** Half of the compartment can be transformed into a multizone, **customisable to your needs.** Whether you require a freezer, refrigerator, or 0° compartment, this space can be adjusted easily to suit any occasion.

Whether you are looking for a seamless built-in look, the character of a retro fridge or the storage capacity of a side-by-side, Smeg have a model for every kitchen.

INDUCTION HOBS

With a comprehensive collection of hobs throughout the range, Smeg induction models vary by size, finish and feature. Showcasing Smeg's latest hob with in built extraction, the HOBD range offers great flexibility whether installed in front of a window or even on an island unit.

This impressive combination hood in hob consists of induction zones on both sides and a flush cast iron grid in the centre which protects the powerful integrated extractor fan. This unique extraction system draws steam and vapours down through the grid quickly and efficiently, much faster than a traditional hood. There are 8 fan speeds to choose from, plus 2 intensive speeds ideal for when even faster extraction is needed.

The 4 induction cooking zones can be combined into 2 Multizones to create flexible cooking areas for multiple or larger pans.

WARMING DRAWERS

Warm up plates and cups before serving, gently defrost, keep food warm or simply reheat, **warming drawers have many uses.** The base of the drawer is also fitted with a **non-slip mat** to prevent items from sliding.

The bread proving function gently heats and proves your dough helping it to rise, a great feature for an **avid baker**.

All warming drawers are **handless** for a seamless aesthetic and can be easily opened and closed by applying light pressure.

15cm high warming drawers are **suitable for fitting directly beneath a 45cm height compact oven** where both items fit in a standard 60cm aperture.

OVEN ACCESSORIES

Available as optional accessories for all Smeg oven cavities, you can expand your cooking flexibility all year round.

GOURMET COOKING STONE

Ideal for **home chefs** and **passionate food enthusiasts**, Smeg's gourmet cooking stones are **more than just a pizza accessory.**

Extremely versatile, these stones can cook everything from crisp, golden pizzas to delicious cookies and freshly baked breads to comforting casseroles.

BBQ PLATE

Recreate **succulent and crispy dishes** in the oven and enjoy the taste of grilled cooking.

This double sided BBQ plate has **a ribbed side** for meats and cheeses and **a smooth side** for fish, seafood and vegetables.

AIRFRY

Recreate traditional frying in the oven, but with **less calories and less fat.**

Cook quick and simple dishes such as chips, fried vegetables and fish, whilst ensuring **perfect browning and crispiness.**

WASHING

With an extensive collection of dishwashing, laundry, sinks and taps, the Smeg range will complete any kitchen in style.

Featuring A-rated dishwashing technology, new Smeg built-in dishwashers include innovative basket designs to accommodate different glassware and crockery shapes and sizes with ease.

Catering for laundry needs, choose from several washer and dryer combinations to maximise washing and drying capacity up to 10kg. Optional stacking kit also available for vertical installation.

To complete the kitchen coordinating sinks and taps are available in stunning finishes such as matte black.
