

## KDD90VXBE

90cm Island Downdraft Hood, Stainless Steel and White glass

EAN13: 8017709270391

- Energy rating: A
- 1 high performance motor, 270W
- Electronic controls
- Perimeter extraction
- 4 speeds, plus intensive (10min)
- 1 x 7W LED light
- 2 aluminium grease filters
- Filter cleaning/replacement indicator
- Automatic switch-off
- Internal re-circulation possible
- Non return valve
- Vent outlet Ø 150mm
- Nominal power 277W

| Speed                            | I   | II  | III | IV  | Int |
|----------------------------------|-----|-----|-----|-----|-----|
| Extraction Rate IEC 61591        | 160 | 290 | 350 | 430 | 700 |
| Noise Level dB(A) IEC 60704-2-13 | 40  | 53  | 54  | 60  | 70  |

NB: Downdraft extractors can be installed anywhere in a kitchen but are ideal for when a hob is situated in an island unit. The extractor is installed under the worktop directly behind, or to the side of, the hob so that when it is not in use, it can be completely hidden from view. A Downdraft extractor can be vented or recirculated. When it is vented the ducting has to be passed under the flooring, below the cupboards or along the back of the cupboards - it is important therefore to decide on the hood before refurbishment work begins. The length of the ducting will affect the extraction performance, if it has to travel too far to go to an outside wall or there are too many turns in the ducting you are advised to recirculate the extractor.

This hood can be vented or recirculated with induction or ceramic hobs. However, when using with a gas hob, only venting out is possible.

When using with a gas hob, the hob must have a Maximum power of 12.4kW and 5 zones.

### Functions

### Options

- **KITRBDD** - Remote motor kit allowing you to position the motor up to 6mts away from the body of the hood
- **KITFCDD** - Charcoal filter kit
- **RCKF2** - Remote control
- **SP150** - Simple ducting kit (150mm wide)
- **SP150FLAT** - Comprehensive ducting kit (150mm wide)

**A** A:  
Product energy rating, measured from A+++ to D / G depending on the product family.

**Intensive/turbo setting:**  
when extra fast extraction is required.

**Perimeter extraction panels:**  
very efficient and aid noise reduction.

**Lights:**  
All cooker hoods feature lights to illuminate the cooking area or add to the ambience of the kitchen.

**Electronic display:**  
to give a visual reminder of the options selected.

**24h:**  
When selected this function refreshes the air for c. 10 minutes every hour over a 24 hour period, at minimum speed and an imperceptible noise level.
