

## SUK92CBL9

90cm "Concert" Cooker with Double Oven and Ceramic hob, Black  
Energy rating AA

EAN13: 8017709172336

### MAIN OVEN

- 7 functions Inc Circulaire element with fan

**Oven capacity: gross - 79 litres, net - 70 litres**

- Usable cavity space dimensions (HxWxD): 316x444x425mm
- Digital electronic clock/programmer
- Air cooling system
- Closed door grilling
- Removable inner door glasses

### Vapor clean

- Conventional (main oven): 0.85kWh
- Forced air convection (main oven): 0.99kWh

### AUXILIARY OVEN (static oven)

- 4 functions Inc Upper & Lower element
- Oven capacity: gross - 39 litres, net - 35 litres
- Usable cavity space dimensions (HxWxD): 311x206x418mm
- Air cooling system
- Closed door grilling
- Conventional (auxillary oven): 0.74kWh

Double storage compartment beneath the ovens

Silver feet and black plinth provided

### HOB

- 5 Radiant 'High-Light zones', including 2 dual
- Rear left: Ø 195mm, 2.0 kW
- Front left: Ø 140mm, 1.2 kW
- Central dual zone: Ø 170/265mm, 1.4/2.2 kW
- Rear right dual zone: Ø 140/210mm, 0.75/2.2 kW
- Front right: Ø 140mm, 1.2 kW
- Residual heat indicators
- Automatic safety cut-out

### Nominal Power: 14.1 kW

- Supply can vary depending on usage, please consult a qualified electrician for ampere requirement

### STANDARD ACCESSORIES:

Main oven:

Extra deep tray

Roasting/grill pan

Grill mesh  
Chrome shelf  
Auxiliary oven:  
Grill mesh  
Chrome shelf  
Non-stick tray

## Functions

## Options

---

- **KIT90X** - St/steel splash back
- **PRTX** - Pizza stone with handles
- **PALPZ** - Folding Pizza Shovel

## Main Oven

### Circulaire:

The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

### FAN WITH LOWER ELEMENT/ CIRCOGAS:

In electric ovens this combination completes cooking more quickly of foods that are ready on the surface, but that require more cooking inside, without further browning. In gas ovens the fan distributes the heat quickly and evenly throughout the oven cavity, avoiding flavour transfer when cooking a number of different dishes at the same time.

**ECO + Upper & lower:**  
ECO + Upper & lower

### Lower heating element only:

Ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

### Fan with grill element:

The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

### Grill element:

For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

**Vapor clean**  
Vapor clean

## Auxiliary Oven

### Upper and lower element only:

A traditional cooking method best suited for single items located in the centre of the oven. The top of the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.

### Lower heating element only:

Ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

### Half grill:

For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

**Grill element:**

For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
